## August 21, 2023

BEIJING, Aug. 21, 2023 (GLOBE NEWSWIRE) -- ZW Data Action Technologies Inc. (Nasdaq: CNET) (the "Company"), an integrated online advertising, precision marketing, data analytics and other value-added services provider serving enterprise clients, today announced its unaudited financial results for the three and six months ended June 30, 2023.

## Second Quarter 2023 Financial Results

#### Revenues

For the second quarter of 2023, revenues increased by approximately \$2.88 million, or 41.4%, to \$9.82 million from \$6.95 million for the same period last year. The increase in revenues was primarily attributable to the increase in our main stream service revenues, i.e. distribution of the right to use search engine marketing services as a result of the end of the peak infection wave of COVID-19 in the first fiscal quarter of 2023 where business activities and performance are gradually getting back to normal in the second fiscal quarter; and a portion of our clients' ad consumption shifts from using our ad portal placement services to using our search engine marketing service.

#### Cost of revenues

Total cost of revenues increased by approximately \$2.91 million, or 41.3%, to \$9.93 million for the second quarter of 2023 from \$7.03 million for the same period last year. The increase in cost was related to cost associated with distribution of the right to use search engine marketing service we purchased from key search engines, which was in line with the increase in the related revenues.

#### Gross loss and gross loss margin

Gross loss was approximately \$0.11 million for the second quarter of 2023, compared to \$0.08 million for the same period last year. Overall gross loss margin rate was 1% for both the second quarter of 2023 and 2022.

#### Operating expenses

Sales and marketing expenses was approximately \$0.05 million for the second quarter of 2023, compared to \$0.08 million for the same period last year. The decrease in sales and marketing expenses was mainly attributable to the gradual downsize of the sales team in our Hubei office during the period, as part of management's cost reduction plan in fiscal 2023.

General and administrative expenses decreased by approximately \$1.32 million, or 52.8%, to \$1.18 million for the second quarter of 2023 from \$2.50 million for the same period last year. The decrease in general and administrative expenses was mainly attributable to the decrease in allowance for expected credit losses of approximately \$0.79 million; the decrease in amortization of administrative assets of approximately \$0.44 million, primarily due to impairment loss recognized against intangible assets by the end of fiscal 2022; and the decrease in other administrative expenses of approximately 0.09 million, as a result of the cost reduction plan executed by management.

## **Operating loss**

Loss from operations was approximately \$1.34 million for the second quarter of 2023, compared to \$2.71 million for the same period last year. Operating loss margin was 14% for the second quarter of 2023, compared to 39% for the same period last year.

#### Other income/(expenses), net

Total other expenses, net was approximately \$0.07 million for the second quarter of 2023, compared to total other income, net of \$1.00 million for the same period last year. The decrease was primarily attributable to the decrease in gain of the change in fair value of warrant liabilities.

#### Net loss and loss per share

Net loss was approximately \$1.40 million, or loss per share of \$0.19, for the second quarter of 2023. This was compared to a net loss of \$1.71 million, or loss per share of \$0.24, for the same period last year.

#### First Half 2023 Financial Results

#### Revenues

For the first half of 2023, revenues increased by approximately \$1.54 million, or 10.5%, to \$16.14 million from \$14.60 million for the same period last year. The increase in revenues was primarily attributable to the increase in our main stream service revenues, i.e., distribution of the right to use search engine marketing services.

#### Cost of revenues

Total cost of revenues increased by approximately \$2.02 million, or 13.9%, to \$16.56 million for the first half of 2023 from \$14.54 million for the same period last year. The increase in cost of revenues was primary attributable to the increase in costs associated with distribution of the right to use search engine marketing service we purchased from key search engines during the period, which was in line with the increase in the related revenues.

## Gross profit/(loss) and gross profit/(loss) margin

Gross loss was approximately \$0.43 million for the first half of 2023, compared to a gross profit of \$0.05 million for the same period last year. Overall gross loss margin was 2.6% for the first half of 2023, compared to a gross profit margin of 0.4% for the same period last year.

## **Operating expenses**

Sales and marketing expenses decreased by approximately \$0.06 million, or 36.7%, to \$0.09 million for the first half of 2023, compared to \$0.15 million for the same period last year. General and administrative expenses decreased by approximately \$1.93 million, or 47.8%, to \$2.11 million for the first half of 2023 from \$4.05 million for the same period last year. The decrease in general and administrative expenses was mainly attributable to the decrease in allowance for expected credit losses of approximately \$0.49 million; the decrease in amortization of administrative assets of approximately \$0.89 million, primarily due to impairment loss recognized against intangible assets by the end of fiscal 2022; and the decrease in other administrative expenses of approximately \$0.55 million, as a result of the cost reduction plan executed by management.

## Other income, net
