CHINANET ONLINE HOLDINGS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Organization and nature of operations

ChinaNet Online Holdings, Inc. (the “Company”) was incorporated in the State of Texas in April 2006 and re-domiciled to become a Nevada corporation in October 2006. On June 26, 2009, the Company consummated a share exchange transaction with China Net Online Media Group Limited (the “Share Exchange”), a company organized under the laws of British Virgin Islands (“China Net BVI”). As a result of the Share Exchange, China Net BVI became a wholly owned subsidiary of the Company and the Company is now a holding company, which, through certain contractual arrangements with operating companies in the People’s Republic of China (the “PRC”), is engaged in providing advertising, precision marketing, online to offline (O2O) sales channel expansion and the related data services to small and medium enterprises (“SMEs”) and entrepreneurial management and networking services for entrepreneurs in the PRC.

The Company’s wholly owned subsidiary, China Net BVI was incorporated in the British Virgin Islands. China Net BVI is the parent holding company of CNET Online Technology Limited, a Hong Kong company (“China Net HK”), which established and is the parent company of Rise King Century Technology Development (Beijing) Co., Ltd., a wholly foreign-owned enterprise (“WFOE”) established in the PRC (“Rise King WFOE”).

To satisfy PRC laws and regulations, the Company conducts certain business in the PRC through its Variable Interest Entities (“VIEs”). Through a series of contractual agreements between Rise King WFOE and Business Opportunity Online (Beijing) Network Technology Co., Ltd. (“Business Opportunity Online”) and Beijing CNET Online Advertising Co., Ltd. (“Beijing CNET Online”) (collectively the “PRC Operating Entities” or the “VIEs”), the Company, through the WFOE, secures significant rights to influence the PRC Operating Entities’ business operations, policies and management, approve all matters requiring shareholder approval, and the right to receive 100% of the income earned by the VIEs. Pursuant to the contractual agreements, all of the equity owners’ rights and obligations of the VIEs were assigned to Rise King WFOE, which resulted in the equity owners lacking the ability to make decisions that have a significant effect on the VIEs, Rise King WFOE’s ability to extract the profits from the operation of the VIEs and assume the residual benefits of the VIEs. Due to the fact that Rise King WFOE and its indirect parent are the sole interest holders of the VIEs, the Company included the assets, liabilities, revenues and expenses of the VIEs in its consolidated financial statements, which is consistent with the provisions of FASB Accounting Standards Codification (“ASC”) Topic 810 “Consolidation”, subtopic 10.

As of June 30, 2016, the Company operated its business primarily in China through its PRC subsidiaries and PRC operating entities, or VIEs as discussed in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2015, previously filed with the Securities and Exchange Commission (the “2015 Form 10-K”).

3. Summary of significant accounting policies

a) Basis of presentation

The condensed consolidated interim financial statements are prepared and presented in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

The condensed consolidated interim financial information as of June 30, 2016 and for the six and three months ended June 30, 2016 and 2015 have been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). Certain information and footnote disclosures, which are normally included in annual consolidated financial statements prepared in accordance with U.S. GAAP, have been omitted pursuant to those rules and regulations. The condensed consolidated interim financial information should be read in conjunction with the financial statements and the notes thereto, included in the 2015 Form 10-K.

In the opinion of management, all adjustments (which include normal recurring adjustments) necessary to present a fair statement of the Company's consolidated financial position as of June 30, 2016, its consolidated results of operations for the six and three months ended June 30, 2016 and 2015, and its consolidated cash flows for the six months ended June 30, 2016 and 2015, as applicable, have been made. The interim results of operations are not necessarily indicative of the operating results for the full fiscal year or any future periods.

b) Principles of consolidation

The condensed consolidated interim financial statements include the financial statements of all the subsidiaries and VIEs of the Company. All transactions and balances between the Company and its subsidiaries and VIEs have been eliminated upon consolidation.

c) Comparability due to discontinued operation

In the fourth fiscal quarter of 2015, the Company exited its brand management and sales channel building business segment, which qualified for presentation as a discontinued operation in accordance with ASC Topic 205. As a result, the results of operations of this business was reported in discontinued operation as a separate component in the Company's condensed consolidated statements of operations and comprehensive loss for all periods presented. Certain accounts in the condensed consolidated statements of operations and comprehensive loss for the six and three months ended June 30, 2015 and related notes have been retrospectively adjusted to reflect the effect of reclassification of results of operations reported in discontinued operation as a separate component.

d) Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the related disclosure of contingent assets and liabilities at the date of these condensed consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. The Company continually evaluates these estimates and assumptions based on the most recently available information, historical experience and various other assumptions that the Company believes to be reasonable under the circumstances. Since the use of estimates is an integral component of the financial reporting process, actual results could differ from those estimates.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

e) Foreign currency translation

The exchange rates used to translate amounts in RMB into US\$ for the purposes of preparing the condensed consolidated financial statements are as follows:

	June 30, 2016	December 31, 2015
Balance sheet items, except for equity accounts	6.6312	6.4936
	Six Months Ended June 30,	2015
	2016	2015
Items in the statements of operations and comprehensive loss, and statements of cash flows	6.5303	6.1288
	Three Months Ended June 30,	2015
	2016	2015
Items in the statements of operations and comprehensive loss, and statements of cash flows	6.5317	6.1203

No representation is made that the RMB amounts could have been, or could be converted into US\$ at the above rates.

f) Advertising costs

Advertising costs for the Company's own brand building are not includable in cost of revenues, they are expensed when incurred or amortized over the estimated beneficial period and are included in "sales and marketing expenses" in the statements of operations and comprehensive loss. For the six months ended June 30, 2016 and 2015, advertising expenses for the Company's own brand building were approximately US\$960,000 and US\$1,220,000, respectively. For the three months ended June 30, 2016 and 2015, advertising expenses for the Company's own brand building were approximately US\$537,000 and US\$572,000, respectively.

g) Research and development expenses

The Company accounts for the cost of developing and upgrading technologies and platforms and intellectual property that are used in its daily operations in research and development cost. Research and development costs are charged to expense when incurred. Expenses for research and development for the six months ended June 30, 2016 and 2015 were approximately US\$1,016,000 and US\$1,063,000, respectively. Expenses for research and development for the three months ended June 30, 2016 and 2015 were approximately US\$590,000 and US\$573,000, respectively.

h) Recent accounting standards

In August 2015, the FASB issued Accounting Standards Update ("ASU") No. 2015-14, "Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date". The amendments in this ASU defer the effective date of ASU No. 2014-09 for all entities by one year. ASU No. 2014-09, issued in May 2014, clarifies the principles for recognizing revenue and develops a common revenue standard for U.S. GAAP and IFRS. Simultaneously, this ASU supersedes the revenue recognition requirements in ASC Topic 605-Revenue Recognition and most industry-specific guidance throughout the Industry Topics of the Codification. The core principle of this ASU requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply the five steps: (1) identify the contract(s) with a customer; (2) identify the performance obligations in the contract; (3) determine the transaction price; (4) allocate the transaction price to the performance obligations in the contract; (5) recognize revenue when (or as) the entity satisfies a performance obligation. Public business entities, certain not-for-profit entities, and certain employee benefit plans should apply the guidance in this ASU to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The Company is currently evaluating the impact on its consolidated financial position and results of operations upon adopting these amendments.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

In March 2016, the FASB issued ASU No. 2016-08, “Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)”. The amendments in this ASU do not change the core principle of the guidance. The amendments clarify the implementation guidance on principal versus agent considerations. When another party is involved in providing goods or services to a customer, an entity is required to determine whether the nature of its promise is to provide the specified good or service itself (that is, the entity is a principal) or to arrange for that good or service to be provided by the other party (that is, the entity is an agent). When (or as) an entity that is a principal satisfies a performance obligation, the entity recognizes revenue in the gross amount of consideration to which it expects to be entitled in exchange for the specified good or service transferred to the customer. When (or as) an entity that is an agent satisfies a performance obligation, the entity recognizes revenue in the amount of any fee or commission to which it expects to be entitled in exchange for arranging for the specified good or service to be provided by the other party. An entity is a principal if it controls the specified good or service before that good or service is transferred to a customer. The guidance includes indicators to assist an entity in determining whether it controls a specified good or service before it is transferred to the customer. The amendments in this ASU affect the guidance in ASU No. 2014-09, which is not yet effective. The effective date and transition requirements for the amendments in this ASU are the same as the effective date and transition requirements of ASU No. 2014-09, which is deferred by ASU No. 2015-14 by one year. The Company is currently evaluating the impact on its consolidated financial position and results of operations upon adopting these amendments.

In March 2016, the FASB issued ASU No. 2016-09, “Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting”. The amendments in this ASU affected all entities that issue share-based payment awards to their employees. The areas for simplification in this ASU involve several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. Some of the areas for simplification apply only to nonpublic entities. For public business entities, the amendments in this ASU are effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted for any entity in any interim or annual period. The Company is currently evaluating the impact on its consolidated financial position and results of operations upon adopting these amendments.

In April 2016, the FASB issued ASU No. 2016-10, “Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing”. The amendments in this ASU do not change the core principle of the guidance in Topic 606. Rather, the amendments in this ASU clarify the following two aspects of Topic 606: identifying performance obligations and the licensing implementation guidance, while retaining the related principles for those areas. The amendments in this ASU affect the guidance in ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which is not yet effective. The effective date and transition requirements for the amendments in this ASU are the same as the effective date and transition requirements in Topic 606 (and any other Topic amended by Update 2014-09). ASU 2015-14 defers the effective date of ASU 2014-09 by one year. The Company is currently evaluating the impact on its consolidated financial position and results of operations upon adopting these amendments.

In May 2016, the FASB issued ASU No. 2016-12, “Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients”. The amendments in this ASU do not change the core principle of the guidance in Topic 606. Rather, the amendments in this ASU affect only the narrow aspects of Topic 606, which include (1) Assessing the Collectibility Criterion and Accounting for Contracts That Do Not Meet the Criteria for Step 1; (2) Presentation of Sales Taxes and Other Similar Taxes Collected from Customers; (3) Noncash Consideration; (4) Contract Modifications at Transition Completed Contracts at Transition; (5); and (6) Technical Correction. The amendments in this ASU affect the guidance in ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which is not yet effective. The effective date and transition requirements for the amendments in this ASU are the same as the effective date and transition requirements in Topic 606 (and any other Topic amended by Update 2014-09). ASU 2015-14 defers the effective date of ASU 2014-09 by one year. The Company is currently evaluating the impact on its consolidated financial position and results of operations upon adopting these amendments.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The Company's deferred tax assets at June 30, 2016 and December 31, 2015 were as follows:

	June 30, 2016	December 31, 2015
	US\$('000)	US\$('000)
	(Unaudited)	
Tax effect of net operating losses carried forward	8,437	7,921
Bad debts provision	913	932
Valuation allowance	(7,958)	(7,303)
Total deferred tax assets	1,392	1,550

The net operating losses carried forward incurred by the Company (excluding its PRC operating subsidiary and VIEs) were approximately US\$16,061,000 and US\$14,903,000 at June 30, 2016 and December 31, 2015, respectively, which loss carry forwards gradually expire over time, the last of which expires in 2036. A full valuation allowance has been recorded because it is considered more likely than not that the deferred tax assets will not be realized through sufficient future earnings of the entity to which the operating losses relate.

The net operating losses carried forward (excluding bad debts provision, amortization of intangible assets acquired from business combinations and non-deductible expenses) incurred by the Company's PRC subsidiary and VIEs were approximately US\$16,312,000 and US\$15,657,000 at June 30, 2016 and December 31, 2015, respectively, which loss carry forwards gradually expire over time, the last of which expires in 2021. The related deferred tax asset was calculated based on the respective net operating losses incurred by each of the PRC subsidiaries and VIEs and the respective corresponding enacted tax rate that will be in effect in the period in which the losses are expected to be utilized. The Company recorded approximately US\$297,000 and US\$96,000 valuation allowance for the six months ended June 30, 2016 and 2015, respectively, and recorded approximately US\$137,000 and US\$16,000 valuation allowance for the three months ended June 30, 2016 and 2015, respectively, because it is considered more likely than not that this portion of the deferred tax assets will not be realized through sufficient future earnings of the entities to which the operating losses relate. The Company also utilized approximately US\$193,000 and US\$158,000 deferred tax assets for the six and three months ended June 30, 2016, respectively.

Full valuation allowance to bad debts provision related deferred tax assets were recorded because it is considered more likely than not that this portion of deferred tax assets will not be realized through bad debts verification by the local tax authorities where the PRC subsidiary and VIEs operate in.

The Company's non-current portion of deferred tax assets and deferred tax liabilities were attributable to different tax-paying components of the entity, which were under different tax jurisdictions. Therefore, in accordance with ASC Topic 740 "Income taxes", the non-current portion of deferred tax assets and deferred tax liabilities were presented separately in the Company's balance sheets.

The tax authority of the PRC government conducts periodic and ad hoc tax filing reviews on business enterprises operating in the PRC after those enterprises had completed their relevant tax filings, hence the Company's tax filings may not be finalized. It is therefore uncertain as to whether the PRC tax authority may take different views about the Company's tax filings which may lead to additional tax liabilities.

18. Long-term borrowing from a director

Long-term borrowing from a director is a non-interest bearing loan from a director of the Company relating to the original paid-in capital contribution in the Company's wholly-owned subsidiary Rise King WFOE, which is not expected to be repaid within one year.

19. Restricted net assets

As most of the Company's operations are conducted through its PRC subsidiary and VIEs, the Company's ability to pay dividends is primarily dependent on receiving distributions of funds from its PRC subsidiary and VIEs. Relevant PRC statutory laws and regulations permit payments of dividends by its PRC subsidiary and VIEs only out of their retained earnings, if any, as determined in accordance with PRC accounting standards and regulations and after it has met the PRC requirements for appropriation to statutory reserves. Paid in capital of the PRC subsidiary and VIEs included in the Company's consolidated net assets are also non-distributable for dividend purposes.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

In accordance with the PRC regulations on Enterprises with Foreign Investment, a WFOE established in the PRC is required to provide certain statutory reserves, namely general reserve fund, the enterprise expansion fund and staff welfare and bonus fund which are appropriated from net profit as reported in the enterprise's PRC statutory accounts. A WFOE is required to allocate at least 10% of its annual after-tax profit to the general reserve until such reserve has reached 50% of its registered capital based on the enterprise's PRC statutory accounts. Appropriations to the enterprise expansion fund and staff welfare and bonus fund are at the discretion of the board of directors. The aforementioned reserves can only be used for specific purposes and are not distributable as cash dividends. Rise King WFOE is subject to the above mandated restrictions on distributable profits. Additionally, in accordance with the Company Law of the PRC, a domestic enterprise is required to provide a statutory common reserve of at least 10% of its annual after-tax profit until such reserve has reached 50% of its registered capital based on the enterprise's PRC statutory accounts. A domestic enterprise is also required to provide for a discretionary surplus reserve, at the discretion of the board of directors. The aforementioned reserves can only be used for specific purposes and are not distributable as cash dividends. All of the Company's PRC VIEs are subject to the above mandated restrictions on distributable profits.

As a result of these PRC laws and regulations, the Company's PRC subsidiary and VIEs are restricted in their ability to transfer a portion of their net assets to the Company. As of June 30, 2016 and December 31, 2015, net assets restricted in the aggregate, which include paid-in capital and statutory reserve funds of the Company's PRC subsidiary and VIEs that are included in the Company's consolidated net assets, was approximately US\$8.1 million and US\$6.7 million, respectively.

The current PRC Enterprise Income Tax Law also imposed a 10% withholding income tax for dividends distributed by a foreign invested enterprise to its immediate holding company outside China. A lower withholding tax rate will be applied if there is a tax treaty arrangement between mainland China and the jurisdiction of the foreign holding company. Holding companies in Hong Kong, for example, will be subject to a 5% rate. Rise King WFOE is invested by its immediate holding company in Hong Kong and will be entitled to the 5% preferential withholding tax rate upon distribution of the dividends to its immediate holding company.

The ability of the Company's PRC subsidiary and VIEs to make dividends and other payments to the Company may also be restricted by changes in applicable foreign exchange and other laws and regulations.

Foreign currency exchange regulation in China is primarily governed by the following rules:

- Foreign Exchange Administration Rules (1996), as amended in August 2008, or the Exchange Rules;
- Administration Rules of the Settlement, Sale and Payment of Foreign Exchange (1996), or the Administration Rules.

Currently, under the Administration Rules, Renminbi is freely convertible for current account items, including the distribution of dividends, interest payments, trade and service related foreign exchange transactions, but not for capital account items, such as direct investments, loans, repatriation of investments and investments in securities outside of China, unless the prior approval of the State Administration of Foreign Exchange (the "SAFE") is obtained and prior registration with the SAFE is made. Foreign-invested enterprises like Rise King WFOE that need foreign exchange for the distribution of profits to its shareholders may effect payment from their foreign exchange accounts or purchase and pay foreign exchange rates at the designated foreign exchange banks to their foreign shareholders by producing board resolutions for such profit distribution. Based on their needs, foreign-invested enterprises are permitted to open foreign exchange settlement accounts for current account receipts and payments of foreign exchange along with specialized accounts for capital account receipts and payments of foreign exchange at certain designated foreign exchange banks.

Although the current Exchange Rules allow the convertibility of Chinese Renminbi into foreign currency for current account items, conversion of Chinese Renminbi into foreign exchange for capital items, such as foreign direct investment, loans or securities, requires the approval of SAFE, which is under the authority of the People's Bank of China. These approvals, however, do not guarantee the availability of foreign currency conversion. The Company cannot be sure that it will be able to obtain all required conversion approvals for its operations or the Chinese regulatory authorities will not impose greater restrictions on the convertibility of Chinese Renminbi in the future. Currently, most of the Company's retained earnings are generated in Renminbi. Any future restrictions on currency exchanges may limit the Company's ability to use its retained earnings generated in Renminbi to make dividends or other payments in U.S. dollars or fund possible business activities outside China.

Total Revenues: Our total revenues decreased to US\$13.5 million for the six months ended June 30, 2016 from US\$15.3 million for the same period last year, which was primarily due to decrease in revenues from search engine marketing service and TV and bank kiosk advertising service during the period. For the three months ended June 30, 2016, our total revenues decreased to US\$8.4 million, compared to US\$9.6 million for the same period last year, which was primarily due to decrease in revenues from TV and bank kiosk advertising service during the period.

We derive the majority of our service revenues from the sale of advertising space on our internet portals and providing the related data service, sales of effective sales lead information, providing search engine marketing (“SEM”) service and other related value added technical support and services and content management services to unrelated third parties and to certain related parties. Our advertising and marketing services to related parties were provided in the ordinary course of business on the same terms as those provided to our unrelated customers. For the six and three months ended June 30, 2016 and 2015, our service revenues from related parties in the aggregate was less than 4.3% of the total revenues for each respective reporting period.

Management considers revenues generated from internet advertising and data service, SEM services and other related technical services as one aggregate business operation and relies upon the consolidated results of all the operations in this business unit to make decisions about allocating resources and evaluating performance.

- Internet advertising and data service revenues for the six and three months ended June 30, 2016 increased to approximately US\$9.29 million, compared to US\$8.22 million for the same period in 2015, representing a 13% increase. For the three months ended June 30, 2016, Internet advertising and data service revenues decreased slightly to US\$5.66 million from US\$5.77 million for the same period in 2015. During 2015, we continued to place persistent effort in integrating and upgrading our internet advertising, marketing and data services to our SME clients. We optimized our online promotion tactics by conglomerating different products of a single large customer and relatively increasing input on segment and industry level online promotions to improve cost efficiency, which helped the Company and our clients achieve more accurate promotion and placement effects with acceptable costs, thereby increasing sales lead conversion rate and overall client satisfaction with our services. We also optimized our online promotion analysis and cost control system to provide more data and feedback to our users, which is especially helpful to our larger clients, and helpful to the Company to achieve a dynamic control on its internet resources costs. As a result, along with eliminating smaller and non-profitable clients, the number of larger customers served by us continued to increase. We will continue to invest in developing new service modules for our clients. We believe that launch of new services in future periods will help increase our market penetration in the SME segment, thereby continuing to increase our recurring revenues in the future.

- Revenues generated from technical services offered by Rise King WFOE were US\$0.02 million and US\$nil for the six and three months ended June 30, 2016, respectively, compared to US\$0.23 million and US\$0.12 million for the same periods in 2015, respectively.
- Revenue generated from search engine marketing services for the six and three months ended June 30, 2016 was approximately US\$4.19 million and US\$2.78 million, respectively, compared to US\$5.64 million and US\$2.60 million for the same periods in 2015, respectively. This enhanced third-party search engine marketing service is designed to help our clients select the most effective key words and to prioritize the ranking of the anticipated search engine results on selected key words in order to increase the sales lead conversion rate for our clients' business promotion on both mobile and PC searches. The decrease in this revenues for the six months ended June 30, 2016 was primarily due to the decrease in revenues generated during the first quarter of 2016, which was primarily due to the delay of finalizing the 2016 framework purchase contract with our key search engine suppliers during the period. As a result, it temporarily limited the supply of this service during the first quarter of 2016. Management believes this service will be an effective supplement to the internet advertising and data service provided to our clients, and will help increase the overall satisfaction with our services, thereby increasing recurring revenues and the number of clients in the future. Due to the relative low gross margin of this service as compares to the internet advertising and data service, management does not expect further expansion of this service in the future.
- As discussed in our 2015 Form 10-K, we exited our bank kiosk advertisement business segment in the fourth fiscal quarter of 2015. We did not generate any TV advertisement revenues for the six and three months ended June 30, 2016, since we did not finalize any TV advertisement resources contracts with suppliers during the periods. For the six months ended June 30, 2015, our total revenues generated from TV and bank kiosk advertisement was approximately US\$1.22 million, of which approximately US\$1.08 million was generated from TV advertisement and US\$0.14 million was generated from bank kiosk advertisement. For the three months ended June 30, 2015, our total revenues generated from TV and bank kiosk advertisement was approximately US\$1.09 million, of which approximately US\$1.02 million was generated form TV advertisement and US\$0.07 million was generated from bank kiosk advertisement.

Cost of revenues

Our cost of revenues consisted of costs directly related to the offering of our advertising, marketing and data services and technical services. The following table sets forth our cost of revenues, divided into five segments, by amount and gross profit ratio for the periods indicated, with inter-segment transactions eliminated:

	Six Months Ended June 30,

	Revenue	Cost	GP ratio	Revenue	Cost	GP ratio
-Internet advertisement and data service	\$ 5,662	\$ 3,244	43%	\$ 5,768	\$ 3,864	33%

-Search engine marketing service	2,774	2,694	3%	2,596	2,522	3%
Internet advertisement and related services	\$ 8,436	\$ 5,939	30%	\$ 8,486	\$ 6,386	25%
TV and Bank kiosks advertisement	-	-	-	1,093	933	15%
Total	\$ 8,436	\$ 5,939	30%	\$ 9,579	\$ 7,319	24%

Cost of revenues: Our total cost of revenues decreased to US\$9.40 million for the six months ended June 30, 2016 from US\$12.19 million for the same period in 2015, which was primarily due to the decrease in costs associated with TV advertisement and search engine marketing services. Our total cost of revenues decreased to US\$5.94 million for the three months ended June 30, 2016 from US\$7.32 million for the same period in 2015, which was primarily due to the decrease in costs associated with TV advertisement service. The decrease in cost of revenues for the periods were in line with the decrease in the related revenues as discussed above. Our cost of revenues related to our advertising, marketing and data services primarily consists of internet resources purchased from key search engines and technical services providers related to lead generation, sponsored search and other direct cost associated with providing services.

- For internet advertising and data service, cost associated with obtaining internet resources was the largest component of our cost of revenues, accounting for over 80% of our total internet advertising and data service cost of revenues. We purchased these internet resources from other well-known search engines and portal websites in China, such as: Baidu, Qihu 360 and Sohu (Sogou). The purchase of these internet resources in large volumes allowed us to negotiate discounts with our suppliers. For the six and three months ended June 30, 2016, our total cost of revenues for internet advertising and data service was approximately US\$5.33 million and US\$3.24 million, respectively, compared to US\$5.66 million and US\$3.86 million for the same periods last year, respectively. The gross margin for our internet advertising and data service revenues increased to 43% for both the six and three months ended June 30, 2016, compared to 31% and 33% for the six and three months ended June 30, 2015, respectively, which was primarily due to the measures we took to increase the cost efficiency and enhance the cost control, as discussed above.
- Costs for search engine marketing services were direct internet resource costs consumed for search engine marketing services provided to clients as described above. We normally charge our clients service fees for this service as a certain percentage of the related direct cost consumed. Gross margin of this service for the six and three months ended June 30, 2016 and 2015 was approximately 3%.

Restricted Net Assets

As most of our operations are conducted through our PRC subsidiary and VIEs, our ability to pay dividends is primarily dependent on receiving distributions of funds from our PRC subsidiary and VIEs. Relevant PRC statutory laws and regulations permit payments of dividends by our PRC subsidiary and VIEs only out of their retained earnings, if any, as determined in accordance with PRC accounting standards and regulations and after it has met the PRC requirements for appropriation to statutory reserves. Paid in capital of the PRC subsidiary and VIEs included in our consolidated net assets are also not distributable for dividend purposes.

In accordance with the PRC regulations on Enterprises with Foreign Investment, a WFOE established in the PRC is required to provide certain statutory reserves, namely general reserve fund, the enterprise expansion fund and staff welfare and bonus fund which are appropriated from net profit as reported in the enterprise's PRC statutory accounts. A WFOE is required to allocate at least 10% of its annual after-tax profit to the general reserve until such reserve has reached 50% of its registered capital based on the enterprise's PRC statutory accounts. Appropriations to the enterprise expansion fund and staff welfare and bonus fund are at the discretion of the board of directors. The aforementioned reserves can only be used for specific purposes and are not distributable as cash dividends. Rise King WFOE is subject to the above mandated restrictions on distributable profits. Additionally, in accordance with the Company Law of the PRC, a domestic enterprise is required to provide a statutory common reserve of at least 10% of its annual after-tax profit until such reserve has reached 50% of its registered capital based on the enterprise's PRC statutory accounts. A domestic enterprise is also required to provide for a discretionary surplus reserve, at the discretion of the board of directors. The aforementioned reserves can only be used for specific purposes and are not distributable as cash dividends. All of our PRC VIEs are subject to the above mandated restrictions on distributable profits.

As a result of these PRC laws and regulations, our PRC subsidiary and VIEs are restricted in their ability to transfer a portion of their net assets to us. As of June 30, 2016 and December 31, 2015, net assets restricted in the aggregate, which includes paid-in capital and statutory reserve funds of our PRC subsidiary and VIEs that are included in our consolidated net assets, was approximately US\$8.1 million and US\$6.7 million, respectively.

The current PRC Enterprise Income Tax Law also imposed a 10% withholding income tax for dividends distributed by a foreign invested enterprise to its immediate holding company outside China. A lower withholding tax rate will be applied if there is a tax treaty arrangement between mainland China and the jurisdiction of the foreign holding company. Holding companies in Hong Kong, for example, will be subject to a 5% rate.

The ability of our PRC subsidiaries to make dividends and other payments to us may also be restricted by changes in applicable foreign exchange and other laws and regulations.

Foreign currency exchange regulation in China is primarily governed by the following rules:

- Foreign Exchange Administration Rules (1996), as amended in August 2008, or the Exchange Rules;
- Administration Rules of the Settlement, Sale and Payment of Foreign Exchange (1996), or the Administration Rules.

Currently, under the Administration Rules, Renminbi is freely convertible for current account items, including the distribution of dividends, interest payments, trade and service related foreign exchange transactions, but not for capital account items, such as direct investments, loans, repatriation of investments and investments in securities outside of China, unless the prior approval of the State Administration of Foreign Exchange (the "SAFE") is obtained and prior registration with the SAFE is made. Foreign-invested enterprises like Rise King WFOE that need foreign exchange for the distribution of profits to its shareholders may effect payment from their foreign exchange accounts or purchase and pay foreign exchange rates at the designated foreign exchange banks to their foreign shareholders by producing board resolutions for such profit distribution. Based on their needs, foreign-invested enterprises are permitted to open foreign exchange settlement accounts for current account receipts and payments of foreign exchange along with specialized accounts for capital account receipts and payments of foreign exchange at certain designated foreign exchange banks.

Although the current Exchange Rules allow the convertibility of Chinese Renminbi into foreign currency for current account items, conversion of Chinese Renminbi into foreign exchange for capital items, such as foreign direct investment, loans or securities, requires the approval of SAFE, which is under the authority of the People's Bank of China. These approvals, however, do not guarantee the availability of foreign currency conversion. We cannot be sure that it will be able to obtain all required conversion approvals for our operations or the Chinese regulatory authorities will not impose greater restrictions on the convertibility of Chinese Renminbi in the future. Currently, most of our retained earnings are generated in Renminbi. Any future restrictions on currency exchanges may limit our ability to use retained earnings generated in Renminbi to make dividends or other payments in U.S. dollars or fund possible business activities outside China.

As of June 30, 2016 and December 31, 2015, there were approximately US\$20.9 million and US\$22.9 million retained earnings in the aggregate, respectively, which were generated by our PRC subsidiary and VIEs in Renminbi included in our consolidated net assets, aside from US\$2.6 million and US\$2.8 million of statutory reserve funds as of June 30, 2016 and December 31, 2015, respectively, that may be affected by increased restrictions on currency exchanges in the future, and accordingly, may further limit our PRC subsidiary's or VIEs' ability to make dividends or other payments in U.S. dollars to us, in addition to the approximately US\$8.1 million and US\$6.7 million of restricted net assets as of June 30, 2016 and December 31, 2015, as discussed above.
