ChinaNet Online Holdings Reports Third Quarter 2016 Financial Results

Management to Host Earnings Conference Call on Wednesday, November 16, 2016 at 8:30 am ET

BEIJING, Nov. 15, 2016 (GLOBE NEWSWIRE) – ChinaNet Online Holdings, Inc. (Nasdaq:CNET) ("ChinaNet" or the "Company"), a leading B2B (business to business) Internet technology company providing online-to-offline (O2O) sales channel expansion, business strategies and marketing solutions for small and medium-sized enterprises (SMEs) by utilizing data analysis and cloud computing technologies in the People's Republic of China, today announced financial results for the third fiscal quarter of 2016.

Third Quarter & First Nine Months Financial Highlights

- Revenues of \$11.9 million in the third fiscal quarter of 2016, up 40.1% from prior year's quarter of \$8.5 million
- Gross profit of \$2.0 million generated in the third fiscal quarter of 2016, a 39.8% increase from \$1.5 million generated in the same period a year ago
- Operating results showed a 46.7% improvement with an operating loss of \$1.4 million for the third quarter of 2016, compared to the prior year's quarter loss of \$2.6 million
- Overall gross margin increased to 24% for the nine months ended September 30, 2016, compared to 19% for the same period last year
- Nine months and three months' internet advertising and data service gross margin improved to 43% and 42%, respectively, compared to 31% in the same periods a year ago

Third Quarter 2016 Financial Results

Chairman and CEO of ChinaNet, Mr. Handong Cheng commented, "ChinaNet's evolution has continued to gain traction in 2016, leaving behind our low-margin television advertising business and instead focusing on the business value created from the massive amount of transaction data generated from our customers as an internet and data service. The ongoing development of this data service platform is the foundation for the ecosystem of products and services that will serve any business at important early stages of their business cycle with a one-stop solution. Called the Business Intelligent Marketing Data Services System - CloudX, it is officially in use for our existing clients and will soon launch to our newer cloud service client base. It is driving revenue and growth for us, along with our full suite of digital marketing products and services which is also seeing year over year growth.

"We also remain committed to our shareholders and investors, reflected in our commitment to remain listed on the NASDAQ Capital Markets, which we accomplished in the third quarter. We look forward to further updates on our transition and future developments."

Revenues for the three months ended September 30, 2016 were \$11.9 million compared to \$8.5 million for the three months ended September 30, 2015, representing a 40.1% increase, which was primarily due to an increase in revenues from search engine marketing services during the period.

During the third quarter, revenues from internet advertisement and data services was \$4.4 million, which decreased 20.1% from \$5.5 million in the third quarter of 2015. ChinaNet continues to focus on integrating and upgrading its internet advertising and data service to SME clients and investing in developing new service modules for clients, and believes that the launch of new services in future will help to increase market penetration and recurring revenues. The decline was offset by a search engine marketing services revenue increase by 160% from \$2.9 million in the third quarter of 2015 to \$7.5 million in the third quarter of 2016. This increase was supported by the CloudX system, which drove more precision marketing and ROI for clients.

Gross profit for the three months ended September 30, 2016 was \$2.0 million compared to \$1.5 million for the same period in 2015, an improvement of 39.8%. Gross margin was 17.0%, down slightly from 17.1% in the third quarter of 2015, primarily due to the increase in relative lower margin revenues from search engine marketing services during the period. Internet advertising and data service gross margin increased to 42% for the third quarter of 2016 from 31% for the third quarter of 2015. The improvement in gross margin of the internet advertising and data service was primarily due to optimizing and upgrading of the Company's online promotion analysis and cost control system, which improved the promotion accuracy, Ad. effect conversion rate and promotion cost control.

The Company incurred an operating loss of \$1.4 million for the three months ended September 30, 2016 compared to an operating loss of \$2.6 million in the same period a year ago.

Net loss attributable to ChinaNet for the three months ended September 30, 2016 was \$1.5 million and loss per share from continuing operations was \$0.13, compared to a net loss of \$2.1 million and loss per share from continuing operations of \$0.18 in the third quarter of 2015.

First Nine Months 2016 Financial Results

Revenues for the nine months ended September 30, 2016 were \$25.4 million, an increase of 6.7% from \$23.8 million for the same period a year ago.

Gross profit was \$6.1 million, up 34.2% for the first nine months of 2016, and gross profit margin of 24.1% was up from 19.2% in 2015. Operating expenses decreased by 5.3% to \$9.9 million compared to \$10.4 million for the first nine months of 2015. The Company reported an operating loss of \$3.8 million in the first nine months of 2016.

Net loss attributable to ChinaNet common shareholders and net loss per share from continuing operations was \$4.2 million and \$0.36 for the nine months ended September 30, 2016. The weighted average diluted shares outstanding were 11.4 million shares.

Balance Sheet and Cash Flow

The Company had \$1.2 million in cash and cash equivalents as of September 30, 2016, compared to \$5.5 million as of December 31, 2015, working capital of \$9.8 million, compared to \$13.7 million as of December 31, 2015, and a current ratio of 2.3 to 1, compared to 2.9 to 1 as of December 31, 2015. Total stockholders' equity of ChinaNet was \$24.3 million at September 30, 2016 compared to \$27.3 million at December 31, 2015.

The Company had a \$1.9 million of cash outflows from operations in the nine months ended September 30, 2016 compared to a \$1.3 million of

cash inflows in the first nine months of 2015.

Business Updates

In August, ChinaNet announced a 1-for-2.5 reverse stock split of its issued and outstanding shares of common stock. The reverse stock split was intended to increase the per share trading price of the Company's common stock to satisfy the \$1.00 minimum bid price requirement for continued listing on The NASDAQ Capital Market. In September, the Company announced it had regained compliance with requirement to continue the listing of the Company's common stock.

The reverse stock split reduced the number of shares of the Company's common stock outstanding from approximately 30.4 million shares of common stock pre-reverse split to approximately 12.2 million shares of common stock post-reverse split. The number of authorized shares of common stock and the par value per share remained unchanged. As a result of the reverse stock split, every 2.5 shares of the Company's pre-reverse split common stock was combined and reclassified into 1 share of common stock. The number of outstanding options was adjusted accordingly, with outstanding options being reduced from approximately 2.1 million to approximately 835,000.

Conference Call

Management will host a conference call with investors on Wednesday, November 16, 2016 at 8:30 am ET

Date: Wednesday, November 16th, 2016

Time: 8:30 a.m. Eastern Time

Conference Line (U.S.): 1-888-455-2263

International Dial-In: 1-719-325-2289

Webcast: <http://public.viavid.com/index.php?id=121881>

A replay of the call will be available from 11:30 am ET on November 16, 2016 to 11:59 pm ET on December 16, 2016. To access the replay, please dial 1- 844-512-2921 from the U.S. and 1- 412-317-6671 from outside the U.S. The PIN is 2363154.

About ChinaNet Online Holdings, Inc.

The Company, a parent company of ChinaNet Online Media Group Ltd., incorporated in the BVI ("ChinaNet"), is a leading digital B2B (business to business) Internet technology company focusing on providing O2O sales channel expansion service for small and medium-sized enterprises (SMEs) and entrepreneurial management and networking service for entrepreneurs in China.
