First Quarter 2013 Financial Results

Revenues for the three months ended March 31, 2013 were \$7.0 million compared to \$14.9 million for the three months ended March 31, 2012, representing a 53% decrease. Low margin TV advertising fell by \$7.7 million, accounting for the majority of the year-over-year revenue decline.

Mr. George Chu, Chief Operation Officer of the Company, stated, "Our financial results for the first quarter of 2013 reflect successful execution of our long term strategy. We continued to invest in new services such as mobile advertising and marketing, brand management and sales channel building and flying cloud during the 2012 economic downturn. We expect 2013 to be a challenging year as the overall economy has slowed further due to the economic policies set by the government. However, our expansion strategy and targeted investments in technology and new products will not be held back because these investments have already helped us win new business and enter new markets. Our strong financial position allows us to maintain these strategic investments, which will only strengthen our company for the eventual rebound in our clients' spending."

First Quarter 2013 Revenue Breakdown by Business Unit (USD in thousands)

	Q1 2013	%	Q1 2012	%	% Change
Internet Advertisement	\$3,811	54%	\$4,345	29%	-12%
TV Advertisement	\$2,638	37%	\$10,369	69%	-75%
Bank Kiosk	\$69	1%	\$71	1%	-3%
Brand Mgmt. & Sales Channel Building	\$531	8%	\$150	1%	+254%

Revenue from Internet advertisements for the three months ended March 31, 2013 decreased by 12% to \$3.8 million compared to the same period a year ago, primarily due to lower spending per customer caused by the general decline in spending by China's SMEs. Sales of brand management and sales channel building services increased by 254% to \$0.5 million, representing 8% of total sales for the three months ended March 31, 2013. This increase was due to the timing of projects completed and successful efforts by ChinaNet in expanding its customer base. TV advertising revenues fell to \$2.6 million in the first quarter of 2013 from \$10.4 million as the Company had significantly higher TV advertising activity in the first quarter of 2012 related to the launch of its entrepreneurial reality show.

Gross profit for the three months ended March 31, 2013 was \$2.6 million, up 8% from \$2.4 million in the same period one year ago. Gross margin was 36.6%, up significantly from 16.0% in the first quarter of 2012. Gross margins improved due to significantly lower sales of TV advertisements, which carry much lower margins.

Operating expenses for the three months ended March 31, 2013 were approximately \$2.6 million compared to \$2.3 million in the same period in 2012. The Company increased selling expenses and research and development expenses by 14% and 36%, respectively, to expand its sales force and increase investments in cloud-based application software and mobile advertising platforms.

The Company had a slight operating loss of \$0.1 million in the three months ended March 31, 2013 compared to \$0.1 million of operating income in the same period one year ago.

Net income attributable to common stockholders for the three months ended March 31, 2013 was \$0.0 million and earnings per share was \$0.00, compared to -\$0.4 million and -\$0.02 for the three months ended March 31, 2012, respectively.
