- \$3.8 million operating cash flows in Q1 2011
- Launched premium branded portal www.liansuo.com
- Reaffirms 2011 net income guidance of \$17.5 to \$18.2 million

BEIJING, May 17, 2011 -- ChinaNet Online Holdings, Inc. (Nasdaq:CNET) ("ChinaNet" or the "Company"), a leading full-service B2B fully integrated Internet service provider for small and medium-sized enterprises ("SMEs") to expand their sales networks in China, today announced first quarter financial results.

Summary Financials

First quarter 2011 Results (USD) (unaudited)

| | Q1 2011 | Q1 2010 | CHANGE |
|--|---------------|----------------|--------|
| Sales | \$7.0 million | \$10.2 million | -31% |
| Gross Profit | \$5.0 million | \$3.5 million | +43% |
| Gross Margin | 71.1% | 34.2% | +108% |
| Adjusted Net Income Attributable to Common Shareholders ⁽¹⁾ | \$2.4 million | \$1.7 million | +42% |
| Adjusted EPS (Diluted) ⁽¹⁾ | \$0.12 | \$0.09 | +33% |

(1) Non-GAAP net income and EPS excludes \$0.2 million non-cash gain on deconsolidation of a subsidiary and \$1.9 million non-cash gain related to changes in fair value of warrants for the three month periods ended March 31, 2011 and 2010, respectively.

First quarter 2011 Financial Results

"Our first quarter results demonstrate further execution on our fully integrated service oriented growth strategy and the inherent operating leverage in our business model," stated Mr. Handong Cheng, Chairman and CEO of the Company. "The decision to allocate resources toward 28.com enabled us to successfully deliver new services to existing clients. This contributed to a doubling of gross margins to over 70%, and respective increases in both earnings and cash flow. As we grow our base of franchise customers, including larger branded clients and introduce new services to monetize this existing base, we see substantial opportunities to further expand our market share. In addition, the opportunity to introduce business services to a much larger client base of non-franchised SME (Small to Medium Enterprise) customers offers us another avenue for growth."

Revenues for the first quarter of 2011 decreased 31% to \$7.0 million from the first quarter of 2010, consistent with management's decision to allocate the majority of its capital to its internet advertising and marketing businesses. Revenues from the internet advertising and marketing business segment increased 30% to \$6.1 million, while TV advertisement revenues fell 87% to \$0.7 million. Successful brand building efforts for 28.com drove further growth in core advertising and internet based marketing tools, while the Company experienced initial contributions from its complementary brand management and sales channel expansion services.

TV production and advertising service revenues decreased as the Company reduced the total minutes of advertising time purchased in order to free up working capital. TV advertisement revenues only accounted for 10% of revenues in the first three months of 2011, down from 53% in the prior year. Revenues from this segment will continue to fluctuate according to customer demand.

First quarter 2011 Revenue Breakdown By Business Unit (USD in thousands) (unaudited)

| | Q1 2011 | % | Q1 2010 | % | % Change |
|---------------------------------------|----------------|----------|----------------|----------|-----------------|
| Internet Advertisement | 6,086 | 87% | 4,694 | 46% | +30% |
| TV Advertisement | 726 | 10% | 5,402 | 53% | -87% |
| Bank Kiosk | 137 | 2% | 132 | 1% | +4% |
| Brand Mgmt. & Sales Channel Expansion | 75 | 1% | - | - | - |

Total cost of sales was \$2 million compared to \$6.7 million for the same period in 2010. Gross profit for the first quarter of 2011 was \$5 million, representing gross margin of 71.1%, compared to \$3.5 million in gross profit and a gross margin of 34.2% in the first quarter of 2010. Internet advertisement generated 76.6% gross margin in the first quarter of 2011, in line with the 70%-80% historical range.

Operating expenses for the three months ended March 31, 2011 were approximately \$2 million, up 44% from the period a year ago. Selling expenses for the period were \$0.7 million compared to \$0.4 million in the three months ended March 31, 2010 due to higher marketing and brand development for 28.com. Research and development expenses grew by 164% year-over-year to \$0.35 million as the Company significantly increased technology and new product development projects.

Operating income for the first quarter of 2011 increased by 42.9% over the prior year to \$3 million. Operating margins improved 2,230 basis points year-over-year to 43.3%.

GAAP net income attributable to common shareholders for the first quarter was \$2.6 million. Adjusted net income attributable to common shareholders was \$2.4 million and \$1.7 million in the first quarter of 2011 and 2010, respectively, representing 41.2% growth. Adjusted diluted net income per share was \$0.12 in the first quarter of 2011 compared to \$0.09 in the same period in 2010, based on 20.8 million and 21.1 million outstanding shares, respectively.

Balance Sheet and Cash Flow

The Company had \$17.6 million in cash and equivalents on March 31, 2011, compared to \$15.6 million on December 31, 2010, working capital of \$25.4 million, compared to \$26.6 million on December 31, 2010, and a current ratio of 5.2 to 1 compared 5.3 to 1 on December 31, 2010. The Company generated \$3.8 million of cash flows from operations in the first three months of 2011. Accounts receivable were \$5.7 million on March 31, 2011, up from \$4.3 million on March 31, 2010, with days sales outstanding of 73 days compared to 38 days.

Guidance for 2011

Management reaffirms its full year 2011 forecast for revenues to be between \$50 and \$54 million for 2011 and net income of \$17.5 to \$18.2 million. This guidance represents 20%-30% and 19%-24% growth in revenues and net income, respectively.

Business Updates

ChinaNet is focused on strategically expanding its rapidly growing internet advertising and marketing services business. Currently, 28.com, which connects SME franchisors with new franchisees, generates the majority of revenues.

To further streamline its internal operations and roll-out of new services, the Company reorganized into four fully integrated advertising, marketing and management services platforms which cover the pre-sale through the post-sale process and include: Social Networking Services (SNS) Information, Advertising and Marketing, Brand Management & Sales Channel Expansion (BMSCE), and Management Tools. ChinaNet expects to generate higher revenues, reduce costs, and increase return on invested capital by leveraging these integrated platforms to improve its marketing reach and services deployment across a broader range of franchisors, SMEs and entrepreneurs.

On May 1, 2011, the Company launched www.liansuo.com, a dedicated online portal focused exclusively on serving larger, high-value branded franchise business owners through an integrated full service platform. Liansuo.com strives to become the leading destination for premium franchise owners and currently lists 300 new customers on its site. By creating the most comprehensive site for qualified entrepreneurs and high quality franchise opportunities and a dedicated sales team of 12 experienced individuals, Liansuo.com will quickly build a large base of loyal clients who pay recurring fees to ChinaNet for advertising, brand management and software tools.

Earlier this month, ChinaNet participated in the Annual China Franchise Expo, Asia's largest and most influential franchise exhibition. The Company met with over 100 new franchise owners across multiple sectors and signed twelve new clients for its integrated advertising and marketing services platform – two for 28.com and ten for Liansuo.com. These events provide tangible brand building and net customer additions and are a key component of the overall marketing strategy.

By integrating the two traditional advertising firms, which were recently acquired in Fujian Province, with our two new portals chuangye.com and zhaoshangke.com (both to be officially launched by the third quarter of this year), ChinaNet is embarking on an innovative model which will enable SME's to transform themselves into branded players who control their own sales channel in China. The target market includes approximately 1.8 million SME's which generate more than \$3 million in revenues and have an excellent core competency by producing high quality or niche products, or being a premier service provider. ChinaNet's value proposition includes helping establish a client's brand, while becoming a complete business partner who both develops and implements a complete business plan to manage marketing and sales efforts, while identifying and securing qualified entrepreneurs to run retail stores or sales locations. The Company currently has fifteen enterprises signed up for this platform and is currently implementing services for three, including companies operating in the food and clothing industry. ChinaNet will receive a success fee, in addition to ongoing revenues from various business services and software tools from other service platform as mentioned. The target is to generate approximately \$3,000 in revenue from each client per month.

“To support our organic growth plan, the Company is actively seeking acquisition targets to enhance its technology as well as to expand its market share in the franchise industry. Our goal is become the leading integrated service provider covering the entire SME sales process in China,” concluded Mr. Cheng.

About Non-GAAP Financial Measures

To supplement our consolidated financial statements, which statements are prepared and presented in accordance with GAAP, we use the following non-GAAP financial measures: adjusted net income and adjusted EPS (basic and diluted). The presentation of this financial information is not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP. We use these non-GAAP financial measures for financial and operational decision making and as a means to evaluate period-to-period comparisons. Our management believes that these non-GAAP financial measures provide meaningful supplemental information regarding our performance by excluding certain items that may not be indicative of our "recurring core business operating results." We believe that both management and investors benefit from referring to these non-GAAP financial measures in assessing our performance and when planning, forecasting and analyzing future periods. We believe these non-GAAP financial measures are useful to investors both because (1) they allow for greater transparency with respect to key metrics used by management in its financial and operational decision making and (2) they are used by our institutional investors and the analyst community to help them analyze the health of our business.
