\*Per share amount for the three months ended March 31, 2016 has been retroactively restated to reflect the Company's 1 for 2.5 reverse stock split, which was effective on August 19, 2016.

For the three months ended March 31, 2017, total revenues increased to \$7.3 million from \$5.1 million in the prior year, primarily due to the increase from search engine marketing revenue during the quarter.

During the quarter, revenues from internet advertising and data services was \$2.3 million, which decreased 36.8% from \$3.6 million in the first quarter of 2016. ChinaNet continues to focus on integrating and upgrading its internet advertising and data service to SME clients and investing in developing new service modules for clients, and believes that the launch of new services in future will help to increase market penetration and recurring revenues. The decline was offset by an increase in search engine marketing services revenue of 252.1% from \$1.4 million in the first quarter of 2016 to \$5.0 million in the first quarter of 2017. This increase was supported by the CloudX system, which drove more precision marketing and ROI for clients.

Gross profit for the quarter ended March 31, 2017 was \$1.3 million compared to \$1.6 million in the first quarter of 2016, a decrease of 20.7%. Gross margin was 17.5%, down from 31.7% in 2016, primarily due to the increase in relative lower margin revenues from search engine marketing services during the quarter. Internet advertising and data service gross margin increased to 49% in the first quarter of 2017 from 43% in 2016. The improvement in gross margin of the internet advertising and data service was primarily due to optimizing and upgrading of the Company's online promotion analysis and cost control system.

Operating expenses decreased by 22.9% to \$2.3 million for the three months ended March 31, 2017. Sales and marketing expenses decreased by 5.2% to \$0.8 million. General and administrative expenses decreased by 36% to \$1.1 million. Loss from operations was \$1.0 million in the first quarter of 2017, an improvement of 25.5% compared to \$1.4 million in the first quarter of 2016.

Net loss attributable to ChinaNet for the three months ended March 31, 2017 was \$1.1 million and loss per share from continuing operations was \$0.09, compared to a net loss of \$1.4 million and loss per share from continuing operations of \$0.12 in the first quarter of 2016. The weighted average diluted shares outstanding for the three months ended March 31, 2017 was 12.0 million shares versus 11.3 million for the three months ended March 31, 2016.
